A new style of painting buggies is being introduced. For full particulars inquire of "Pete" Jantz.

Best fine-cut tobacco in the city at Neidermeyer's.

Tupper has retired in disgust from the editorial business. His tracks are to be filled by the inextinguishable and incorruptible John Lindsay, of Pollyvog.

Pipes, of all styles and prices, at Kepler's.

Choice raisins and all kinds of dried fruits, at Newell & Hamner's.

When you wish to buy a watch, clock, or anything in the jewelry line, you will find it will pay you to call on Curtis & Richter.

The famous North Carolinians are to give a concert at the opera house on Wednesday evening, June 23d.

The press speaks of them as the best troupe traveling.

A lot of codfish, of superior quality, at Lewis & Milligan's.

D. M. Barnett & Co. keep a full line of wooden and willow ware.

More washing machines are being sold in this city this summer than ever before.

Some of these machines are being manufactured by carpenters of this place.

A large quantity of the brick to be used in the construction of John H. Miller's new block of buildings on the corner of North Main and Prairie streets, have been hauled, and all the preparations for the commencement of the work are made.

The brick-laying will commence before many days.

Look at those splendid chandeliers, at J. J. Davis & Co.'s.

Try those fragrant perfumeries, sold by W. G. Armstrong.

If you think buggy-riding is not enjoyable these pleasant evenings, just accept, (as we did last evening) an invitation from "Doc" Moffit to take a ride about town behind that splendid team of bays which he drives.

We almost too good to talk about.

Race ball is unquestionably the ruling game among Decatur boys.

A ride over the city on any fair day is sufficient to convince one of the truth of this assertion.

An ineffectual attempt was made not long since to revive the ancient game of "shinny."

The efforts were unsuccessful, and the favorite game will not become popular until cold weather.

Don't fail to take a glass of delicious soda water from Snyder & Gue's fountain.

The shooting match of the Decatur Shooting Association, which is to take place at the fair grounds to-morrow afternoon at 4 o'clock, promises to be of more than ordinary interest.

We learn that Mr. W. H. Linn, the president of the club, and other noted marksmen, will be present and take part in the match.

There is considerable speculation as to who will be the winner of that gold medal. The decision will be awaited with interest.

J. P. March, the old-wheel horse of the fine boot business is still at his post, and turning out fits that please the people "michly."

RAILROAD NEWS.

Twelve regular freight trains are now running daily through this city on the T. & W. W. Railway and its branches, and yet the officers and employees do not claim to be doing a lively business.

The six regular passenger trains which are run daily on the Illinois Midland Railway are a great convenience to our citizens who may visit the towns of our neighboring counties and return in one day.

Long-horned Texas cattle occasionally pass through here by the car load for the Chicago market.

The pay car of the T. & W. W. Railway has made its regular monthly visit to this city, and the employees are rejoicing in the possession of fat pocket-books.

The American Express Company receives a handsome income for the amount of fruit it transfers from the south to the north. No regular fruit express train will be run for a month or more yet.

Our Vigilant Police are at work at present in hunting up vagrants and persons who have no visible means of support, satisfied that they are at the bottom of most of the petty larcenies which are committed in the city.

If any person is convicted of vagrancy, the fine usually assessed is \$30 or more, and in default of payment, the prisoner is sent to the county jail for six months.

Our police are doing their best to "forget out" vagrants. The campaign has been commenced, and the officers declare their intention of "fighting it out on this line" if it takes all summer, or until every vagrant is either frightened away or imprisoned in the county jail.

We feel safe in predicting that if the officers adhere to the present intention there will be less larceny heard of next fall and winter.

Ladies' Suits will be sold at Goldburg's from to-day cheaper than any other place in the city.

For Sale.—A good two-story frame boarding-house, with twelve rooms, cellar, good stable and well—an excellent opportunity to keep a public house. It is in one of the most thriving and growing towns of central Illinois.

For price and terms see WARREN & DUNFER.

A Talking Match.—We learn that a warmly contested talking match came off last evening in the vicinity of the St. Nicholas Hotel, between three of our citizens, the arrangement being that the one holding out the longest should be considered the winner.

Whether by prearrangement or not, is not definitely known, but as a matter of fact two of the talkers concentrated their fire upon the other, who seeing the odds against him "flew to explain," and in doing so one foot flew up, hitting the forehead of his opponents in the jaw.

In throwing out his hands to save himself from falling they involuntarily grasped the chair from which he had just arisen, which at once arose in mid-air, and placed itself in dangerous proximity to the cranium of him whose jaw already bore the impress of a number 7 boot.

For a moment the three stood spell-bound, but finally he with the acting jaw slowly retired, the upraised chair came gradually down to terra firma, and the contest was considered closed, as a drawn game. The question now revolving in the minds of these talkers is, "When shall we three meet again?"

Ladies' Underwear cheaper than any body can make them, sold at Goldburg's.

All Promenades.—Arrangements have been made for a picnic among the young folks, to take place at Hickory Grove this evening.

A platform has been erected, whereon the short haired youth and the pained maiden will graduate in the whirling waltz to the intoxicating music of Ebert's quadrille band, while the festive strawberry will be smothered in unburned butter and devoured between sets, beneath the pale light of gentle Luna.

How many charming little tea-tables will be enjoyed nobody will ever be able to tell, for it is not the especial privilege of the young to murmur tender phrases when the moon is near the full.

A few people of mature years will be kindly permitted to accompany the pioneers, "to give tone to the party and strength to the coffee," not to mention the monthly care they will exercise over the child.

Wanted.—Two or three furnished rooms, suitable for house-keeping. Address Box 561.

Chronos.—J. S. Hand & Co. have just received a lot of English and German Chronos, which for beauty and accuracy, can not be excelled by any we have ever seen in Decatur.

Some of the landscapes, especially those representing Alpine scenery and "Bingen on the Rhine," are really superb. If you have an eye for the beautiful go to Hand's and inspect these handsome chronos.

"Squealing."—The express and transfer wagons in the city are more numerous than necessary during certain seasons of the year, and to several little or no employment is furnished. The law of custom and low rates for hauling have induced the expressmen to "squeal" at the high license they are compelled to pay to the city for running transfers.

Several are debating among themselves as to what would be the best plan of getting the rate of license lowered or abolished entirely.

Too Much at Stake.—Steele & Price, the manufacturers of Dr. Price's Flavoring Extracts and Cream Baking Powder, with their respectability, large trade, wide reputation, and constantly increasing popularity, have too much at stake to put upon the market anything which has not, by careful analysis and constant trial, been found to be not only harmless, but positively beneficial, as well as superior to any other similar articles.

Dr. Price's Cream Baking Powder and Flavoring Extracts are the only kinds made by a practical chemist as well as physician with special regard to their healthfulness. And they are rapidly superseding all inferior and deleterious compounds for similar purposes.

POLICE NEWS.

This morning Al. Ray was arrested and taken before Justice Hughes on the charge of intoxication and disturbance.

From the evidence in the case it was ascertained that Ray, during a fit of drunkenness, had grossly insulted several ladies who chanced to pass him on the street.

For intoxication the "Squire" thought \$1 and costs was a sufficient penalty. For the second charge, however, the Justice imposed a fine of \$10 and costs.

The prisoner was penitent, and just as preparations were being made for taking him to the calaboose, Constable Young stalked into the room bearing a state warrant, charging Ray with vagrancy.

The prisoner made no defense and acknowledged the justice of the accusation, at the same time asserting his willingness to bear whatever punishment was inflicted upon him.

"Squire Hughes assessed a fine of \$20 and costs, in default of which, the prisoner was sentenced to the county jail for three months.

He was given to the protecting care of officer Young, who suffered his meek and lowly charge to walk without impressing any manacles or handcuffs.

The prisoner walked without any show of disloyalty to his officer, and he had passed the business portion of the city and neared the jail, when his soul revolted at the thought of being caged, and he adopted an entirely new plan of action.

Seizing the first opportunity he dodged his companion and soon had his nimble limbs in swift motion for the outskirts of the city.

He soon fairly outstripped his pursuer, and the general belief now is that he has left the city for all time.

Everybody likes Stephen's brand, and he delivers it in all parts of the city without extra charge.

THE BEAN CROP.

The bean crop is worthy of a place in a rotation, not only for its profit, but for its influence upon the soil.

It takes little from the soil, is a cleaning crop, requires little outlay for seed, occupies the ground but a short time, and may follow a crop of clover the same season.

An early ripening is chosen. The "Medium" ripens early, is hardy, but sells at a lower price than the "Marrow." The latter is very productive on a good soil, and is a popular market variety.

If properly harvested the hull is much relished by sheep, and is nutritious.

The bean, when ground with corn or oats, is readily eaten, and when cooked pigs will eat it with avidity.

No food is better for a growing animal, nor contains more flesh-forming elements than this bean.

The idea, however, that beans may be grown with a profit upon a soil too poor for any other crop, is erroneous.—Agriculturist.

TO CONSUMPTIVES.

The advertiser, a retired physician, having providentially discovered, while a Medical Missionary in Southern Asia, a very simple vegetable remedy for the speedy and permanent cure of Consumption, Asthma, Bronchitis, Catarrh, and all throat and lung affections,—also a positive and radical specific for Nervous Debility, Premature Decay, and all Nervous Complaints, feels it his duty to make it known to his suffering fellow-men.

Actuated by this motive, he will cheerfully send (free of charge) to all who desire it, the recipe for preparing, and full directions for successfully using, this providentially desired remedy.

Those who wish to avail themselves of the benefits of this discovery without cost, can do so by return mail, by addressing Du Chas, P. Marshall, 61 Niagara St. Buffalo, N. Y.

For Dyspepsia, General Debility and bad health you will find Dr. Deitchon's Constitutional Restorative the most powerful cure you ever need. Use it by all means. For sale by Theo. Hildebrandt, Druggist, Decatur, Ill.

TEXAS LANDS.

We desire to say that if our Illinois friends want a section or more of GOOD LANDS, in a good country, and they will send their orders through Messrs. Peddler & Burrows, or Warren & Durfee, we will personally see that they get choice lands.

All orders received by letter or telegraph, by the 5th of July, will receive our careful attention.

We are satisfied, from the rapidity with which the public domain of Texas is being entered, that another expedition to ENTER LAND will be fruitless.

By the 25th of June, we will be fully prepared, with maps, documents, and men, to go into every nook and corner on the frontier and elsewhere, with one of the most reliable surveyors, in this or any State.

Nothing but filing the scrip with the surveyor and designating the land, will secure it. The heavy immigration now pouring into these frontier counties, will soon give to every settler neighbors.
